Jane Henney, M.D.
Commissioner
Food & Drug Administration
5600 Fishers Lane, Room 1471
Rockville, Md 20857

Dear Commissioner Henney:

I am writing to tell you that I hope the FDA will promptly approve claims filed for saw palmetto and the symptoms of benign prostatic hyperplasia, psyllium husk seeds and the risk of heart disease; folic acid, vitamin B6 and vitamin B12 and cardiovascular disease; and vitamin E and the risk of cardiovascular disease.

I have been taking nutritional supplements for more than thirty-five years, and at 85 years of age people say I look twenty years younger. I am active and on no prescription medicine.

I have had to "dig" out the information from the written word in books and magazines to learn about the benefits of vitamin supplementation.

Thank you for approving these claims.

Very sincerely,

Annette Briesacher
